LEGAL NOTICE

PROPOSAL for Renovation Services.

The City of Union, Kentucky is seeking a sealed bid proposal for renovation services to the City of Union Building located at 1843 Mt. Zion Road.

The full RFP announcement can be found on the City's website: cityofunionky.org. All bids and proposals in response to this solicitation must be received at 1843 Mt. Zion Road, Union, KY 41091 on or before 10:00 AM local time, Friday, February 8, 2019. Bids will be opened at 10:00 AM on Friday, February 8, 2019.

A Walk-Through will be held for interested parties on Tuesday, January 29th at 1 p.m. at 1843 Mt. Zion Road to review the scope of the project and answer any questions. Attendance at this walk-through is highly recommended for those intending to submit written proposals to the city for this renovation.

**For questions, please contact David Plummer at 859-384-1511 or
cityadministrator@cityofunionky.org**

12/12/2018

The following are the general scope and outline specifications, the intent, for the proposed remodeling project to the City of Union Administration Building. Contractors are responsible for examining and taking into consideration all existing conditions in their submitted bid. The plans accompanying this scope are for material specification and bid submission purposes. They are not completed by a licensed architect and do not convey any associated guarantee or liability for design therein. Contractors are responsible for ensuring all building codes are followed and the structural integrity of all construction completed.

Demolition

- Remove partitions, aluminum storefront, doors and built-in furniture per demolition plan
- Salvage for reuse items as noted on demolition plan
- Protect flooring and adjacent surfaces during demolition and construction phases
 - Replace/repair flooring and/or adjacent surfaces if damaged during demolition or construction phases
- Dumpsters for debris removal as necessary

Concrete

- Remove concrete/sidewalks at covered entrances as indicated on drawings
- Pour concrete footers and slabs on grade

Aluminum Storefront

- Remove and reinstall existing storefront per plans
 - Modify existing exterior as necessary to accommodate
- Furnish and install new aluminum and glass entry door per door schedule

Exterior Enclosure

- 2x4 framing at 16" on center
- Pressure treated if in contact with concrete
 - Sill sealer
 - Anchor to concrete at 16" on center
- R13 insulation in stud bays
- 6 mil vapor barrier on inside face
- Weather resistant barrier, Versetta stone wainscotting, cap and fiber cement lap siding on exterior per drawings

Interior Partitions

- 2x4 framing at 16" on center
- Pressure treated if in contact with concrete
 - Anchor to concrete at 16" on center
- Mineral wool batt for sound insulation in each stud bay
- 5/8" type X drywall, level 4 finish

Doors and Hardware

- Furnish and install metal door frames, prefinished wood doors, locking lever sets, hinges per door schedule on drawing
- Furnish and install metal window frame with fixed glass transaction window

Millwork

- Furnish and install plastic laminate counter and support gusset per drawings
 - Formica or Wilsonart, color TBD
